

Directors Certification Update - 2015

BANK DIRECTORS!

**Keep your certification current by attending
our annual update session.**

For the last five years, the implementation of the Dodd-Frank Act has been a game changer for the banking industry and the boardroom. New governance, capital, investment and compliance rules have come into play in 2015. Financial services regulation continues to change rapidly and dramatically.

While this update session is designed for directors who already hold their certification, all directors will benefit from the critical information provided by this program. This year's update program will focus primarily on the recent developments and new regulations and what they mean for directors. Our speakers will discuss what makes an effective board, as well as what regulators, examiners and shareholders expect of directors.

Topics for this year's *full-day session* include:

- Dodd-Frank Act: Five Years Later
 - New Regulations
 - Capital Rules – Current Issues
- FDIC Insurance Premium Proposal
- Corporate Governance: *Developing Standards*
- Bank Investment and Liquidity Issues
- Consumer Financial Protection Bureau Developments
