# Monthly Telephone BRIEFING

**Friday, March 21, 2025 – 12:00 – 1:30 p.m.**

## **Planning for Wildfires, Emergencies, and Other Natural Disasters**

In January 2025, the devastating wildfires in Southern California caused the most extensive fire-related damage in the state's history. Reports indicate that the fires may have destroyed approximately 16,000 structures and resulted in over \$50 billion in damages. Additionally, the fires disrupted both customers and the operations of financial institutions in the affected areas.

Given the recent wildfires, financial institutions should take this opportunity to review and strengthen their business continuity plans. Severe wildfires can significantly impact the delivery of critical financial services. While federal and state agencies have issued guidance on emergency preparedness and response planning, financial institutions must assess and implement measures tailored to their specific circumstances.

Join us for the March Telephone Briefing, where we will discuss business continuity planning and review relevant regulatory guidance from federal banking agencies.
